

Pacific City Dorymen's Association Fishing Value Maps – Mar 2012

Pacific City Dorymen's Association Fishing Value Maps – Mar 2012

Legend

This map represents the combined aggregate fishing grounds for the charter, private and commercial sectors for Pacific City, Oregon.

Specifically, the aggregates used were derived from interviews with charter captains, recreational and commercial fishermen from Pacific City, Oregon.

The user groups aggregate that were combined were Dungeness crab, Pacific Halibut, Rockfish, and Salmon. They also noted that they fished for Tuna offshore.

The combined fishing grounds are depicted from High to low, which illustrates the relative importance of fishing grounds.

Scientific Methodology

- All participants were ask the same questions
- Provided Maps to Document their answers
- The Map Information was compiled with a third party and put on transparency overlays
- The overlays were added one by one to produce the map
- The map is held in confidence with the Non-Profit C-3 Organization The Pacific City Dorymen's Association
