

OREGON GEOGRAPHIC OIL SPILL RESPONSE PLANS

PLEASE SEND ALL COMMENTS NO LATER THAN JANUARY 1, 2019.

GEOGRAPHIC OIL SPILL RESPONSE PLANS

The Oregon Department of Environmental Quality (DEQ) is in the process of updating **geographic oil spill response plans** for the Oregon Coast. You can learn more about this project in our [story map](#). Each plan includes a set of strategies for:

- Collecting spilled oil;
- Keeping spills away from sensitive resources; and
- Notifying those who could be impacted by a spill.

HELP REVIEW THE DRAFT PLANS

Our draft strategies are now ready for review, and **we need your help** to make sure the strategies in your area are feasible and effective. Here are three options for accessing the information:

ONLINE

You can view the strategies on a web browser

[Click here to view the interactive map](#)

GOOGLE EARTH

You can download the KMZ for each dataset below:

- [Response strategy points](#)
- [Response strategy lines](#)
- [Notification strategies](#)
- [Potential Staging Areas](#)
- [Potential Incident Command Posts](#)

ARCGIS

If you have ArcGIS Desktop, you can [download the draft strategy datasets here](#). This map package includes shapefiles of draft response and notification strategies as well as potential staging areas and potential incident command posts.

WAYS TO COMMENT

Please submit all comments by January 1, 2019. We will use your comments to make our oil spill response strategies even better before we release full drafts of the new plans.

- Email Sarah Idczak (sarah.idczak@state.or.us) or Don Pettit (PETTIT.Don@deq.state.or.us).
- Please include the strategy ID code and name in the subject line.
- Call me (503-229-5457) or Don Pettit (503-229-5373)
- Use our [online comment form](#)
- Use our [web map viewer](#) to email us a geotagged drawing

Please contact Sarah Idczak with any questions. To learn more about this project, please visit our [story map](#).
